

Kroatien / Krk / Baska; "Pyramidi" -

"THE BLUE LIGHT" 5c (5a obl)"

(6; 5+obl)

✦ 1st. ascent: Thomas Behm 6/2014

✦ Char.: Beautiful and nice Multi-Pitch-Route at the Island Krk, maybe one of the longest here. But not a compact wall, nevertheless very good pitcher along white rock with many sharp erosions!

Also the landscape is very beautiful: Nearby the tourist-center of Baška you'll find absolute solitude and romantic views down to the sea!

Protection is very good with 10mm-NIRO-Bolts and a few normal pegs + slings!

✦ Access: From Baska / Zarak few metres direction "BAG"; than without trail to the right and directly (maybe before the small wood turn right and than left again) to the formation of "Pyramidi" (15-20 min.)

✦ Descent: Turn left and you'll reach the begin of the route without difficulties.
